## ABOUT THIS E-BOOK

Potato Talkies (<u>www.potatotalkies.com</u>) is an initiative by a young couple from India (Navjot & Simran) who applied for their Canadian PR in 2019 and moved to Toronto in March 2020.

In this e-book series, you will get unfiltered information about everything there is to know about immigrating to Canada starting from eligibility to getting the PR stamped on your passport.

#### WHY DID WE MAKE THIS E-BOOK SERIES?

When we thought about moving to Canada in 2018, we had no idea where to start. The information is scattered across different forums, YouTube videos and Canada's official website and there is no structure to anything – which left us with 2 options:

- 1. Do our own research and file the application on our own make mistakes, correct them and move on.
- 2. Hire a consultant to do it for us.

We went with Option 1 (thankfully!), and soon realized that option 2 is a total scam. Once you get your PR, you realize that the process isn't as complicated and giving USD 1000-3000 to consultants is a total waste of time and money!

So the purpose of this e-book series is to put everything in one place and get these silly and useless consultants go out of business! ;-)

## Who should go through this e-book?

Simple! People who are serious about moving to Canada and change their lives forever.

This book is most relevant to people who have no or only intermediate knowledge about ways to immigrate. It would equip you with almost everything there is to know about moving to your Dream Country (at least that's what it is for us)

## Who is this NOT for?

Lazy heads, who want to move to Canada but are not willing to put the work into it! In the last 18 months, I have met so many people who spent a shit load of money on consultants and yet got their applications rejected.

Moving to Canada is probably the most important step you would take in your life! How can you leave this to the mercy of a consultant who has nothing to do with whether you live or die?

Therefore, if you are not willing to invest time into your application, do not waste your time here – close this e-book and hire a consultant (no offense).

### More than an e-book!

My name is Navjot, and I am the chief author of this e-book. I have a passion for writing and hope to author a mainstream book someday ©

I have poured my passion into this series and I will continue to make at least quarterly updates (if not monthly) to provide you with the most recent immigration information.

But my passion and this e-book doesn't stop here.

## Our You-Tube channel

With this e-book, we launched our you-tube channel has a 3part series about Immigration to Canada. Both Simran & I host this channel. We have some amazing content and tried to make it as entertaining as we can  $\odot$  This is our first attempt at YouTube, but we are quick learners and strive to provide the best quality content to you.

# Our Mobile app Google Play

Just like writing is my passion, coding is Simran's passion – yup, my wife is a nerd © Do download the app "CanGuide" from play store. It has some very useful (free) tools including eligibility, CRS calculators, PNPsuggest tool (super cool) and more!

# Get a peak into our lives [0]

And finally, get to know us behind the scenes and LIVE updates about our life in Canada. Follow us on Instagram @potatotalkies and get to know who Simran & Navjot are ©

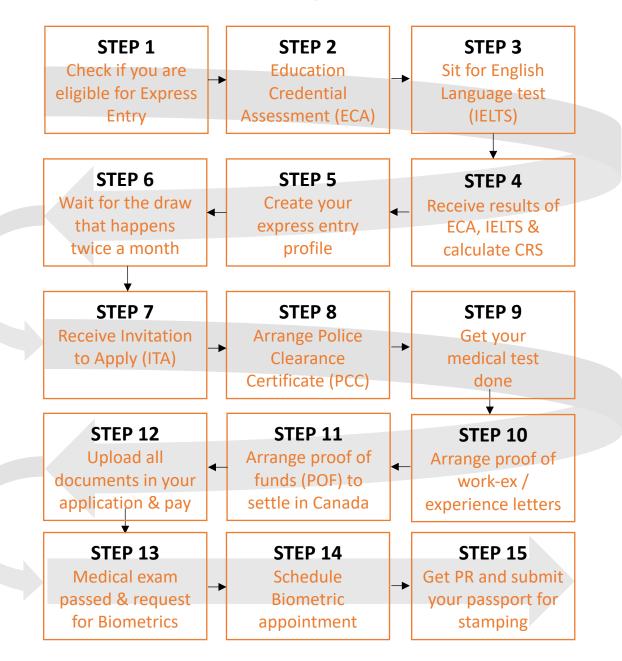

## So, where do I start?

The first step is to understand the end-end process. The most common and fastest way to enter Canada is via "Express Entry" under Federal Skilled Worker (FSW) program (there are other ways as well; we will talk about them separately in volume 3)

Below is the flowchart of all the activities involved. It is a little complicated, but if you click on each activity, it will take you to individual details about each step ©

# Am I eligible for Express Entry?

There are 6 selection factor points that add up to 100 points. Don't worry about calculating the eligibility for now. We will get to that at the end of the section.

#### 1. LANGUAGE SKILL POINTS (MAX 28 POINTS)

- It is important to be able to communicate in Canada's official languages — English or French in order to get a good job in Canada.
- The points are distributed based on your ability to listen, read, write and speak in one or both languages
- Out of 28 points, 24 are for the first official language (English or French) and the remaining 4 points for secondary official language.
  - For example, if you only understand English and have no knowledge of French, the maximum points you can achieve is 24 / 28.
- We will talk about language testing later in the book.

#### 2. EDUCATION (MAX 25 POINTS)

- The more educated you are, the more points you get.
- If you went to a school in Canada, you are GOLD ☺ and have an edge over others who didn't (like me ☺).

#### 3. WORK EXPERIENCE (MAX 15 POINTS)

- Again, the more work experience you carry, the more points you get. If you have worked in Canada, you are gold and score additional points.
- If you have over 6 years of experience, you get the full 15 points. However.... Please turn to the next page ☺

- Not all experience is equal. You need a minimum of 1-year continuous experience in order to be eligible to come to Canada. For example, if you have worked in 2 jobs for 11 months and 10 months respectively, you are not eligible because none of them is continuous 12 months.
- The experience should be:
  - 1. At least 30 hours per week (if it's a part time job of say 15 hours per week, then you need a minimum of 2 years experience in order to qualify)
  - 2. It should be paid (and you should have the proof for it)
  - It should be skilled.
- But how do you know if your experience is skilled?
  - There are 3 skilled job groups that are eligible for express entry Skill type 0, Skill level A, Skill level B.
  - Each job group has a set of NOC codes (NOC stands for National Occupational Classification) basically a code for each job type. Like software engineer is 2173 (Skill A) and so on...
  - To know where you belong, <u>click on this link</u> and search for your job title — and it will give you your **NOC code** along with the skill type.
  - Remember, you should be either Skill level 0, A or B to be eligible for express entry to Canada.
  - This eligibility criteria was a long one... © But super important.

#### 4. AGE (Maximum 12 points)

- This one is straight-forward. You get the full 12 points if you are between the age group 18-35.
- It reduces by 1 point every year after the age of 35. So 36 will be 11 points, 37 will be 10 points and so on till age 47 you get 0 points. So the earlier you apply, the better it is!

#### 5. ARRANGED EMPLOYMENT IN CANADA (MAX 10 POINTS)

- This one is difficult to achieve, but why not! Nothing is impossible ©
- A valid offer has to be:
  - For continuous, paid, full-time work (minimum of 30 hours/week) that is:
    - ✓ Not seasonal
    - ✓ For at least 1 year
  - o In an occupation listed as Skill Type 0 or Skill Level A or B of the NOC (Know the NOC here).
- There are a few other conditions that need to be satisfied and you can get that information here.

#### 6. ADAPTABILITY (MAX 10 POINTS)

- **Get 5 points** if your spouse also gets a decent score in English or French language test.
- **Get 5 points** if you and / or your spouse have studied in Canada (at least 2 years). 10 points if you both studied in Canada.
- There is more... please turn to the next page! ☺

Google Play

- 10 points if you have worked for over 1-year full time, paid in Canada (Skill level 0, A, B)
- 5 points if your spouse has worked for over 1-year full time, paid in Canada (Skill level 0, A, B)
- 5 points for getting an arranged employment in Canada
- 5 points if you have a blood relative living in Canada (min age 18 years and is Canadian Citizen or PR holder) – incl parent, grandparent, child, grandchild, blood sibling, blood aunt or uncle, blood niece or nephew

**NOTE**: you can only claim a **maximum of 10 points** for adaptability. So even if you score 20 points on adaptability, you will get only 10. Awwww.... ©

#### How many points do I need out of 100?

Minimum 67, else you won't be eligible to apply via express entry and skip to volume 3 for alternate ways of immigrating.

Too much information? Let's make your life simple ©

Download the app <u>"CanGuide"</u> from Play Store, answer a few questions and check your eligibility.

Get these things before checking the eligibility:

- 1. Your NOC code
- Your language Score if you don't have one, just assume an average of 8,7,7,7 in listening, reading, writing and speaking respectively.

## Education Credential Assessment (ECA)

If your highest education has been done in Canada, you are GOLD and you need not bother about this step.

However, most people are like me, who have their degrees from outside Canada.

An Educational Credential Assessment (ECA) is used to verify that your foreign degree, diploma, or certificate (or other proof of your credential) is valid and equal to a Canadian one.

In most cases, you only need an assessment for your highest degree. To understand if you need your bachelors evaluated, you can either refer to the <u>official WES link</u> or <u>watch our video</u>.

The education qualifications that fetch points are (from highest to lowest points):

- 1. Doctoral level (Phd)
- 2. Master's degree or professional degree
- 3. Two (or more) certificates, diplomas or degrees. One of them must be 3 or more years
- 4. Bachelors' degree (3 or more years)
- 5. Two-year program at a university, college or institute
- 6. One-year program at a university, college or institute
- 7. Secondary diploma (12<sup>th</sup> Standard)
- 8. None, or less than secondary / high school

IMPORTANT: FOR NUMBER (3), YOU NEED TO GET ALL DEGREES ASSESSED, and not just your highest degree.

# How do I get my ECA?

There are 5 agencies accredited by Canadian immigration that would do your ECA:

The most popular, least expensive and fastest is **World Education Services (WES)**.

Time taken by WES: 2-3 months Cost of Evaluation: USD 227

#### **IMPORTANT TIP**

Initiate this as soon as possible as it's the most time-consuming step, even when you are not 100% sure of moving. It is valid till 5 years! So no harm ©

#### Drawback of using WES

- If you have done a 2-year PGDM in Management, they will assess it as 1-year diploma (and not Masters)
- If you have done a 2-year Masters degree they may assess it as 1-year diploma / 3-year bachelors (and not masters)

Basically, as per WES, your master's degree has to be 3 years or more, else it's not MASTERS ©

In these cases, there are 2 more agencies that you can go for assessment – IQAS and CES

Both these are likely (not 100% guaranteed though) to give you a masters equivalency for 2-year PGDM and 2-year masters degree. They are slightly more expensive and take more time (up to 4-6 months). CES is faster than IQAS.

So go for IQAS and CES only if it's absolutely necessary to get those additional points.

# What are the steps to follow in order to get my ECA from WES?

- 1. Go to their official website and Select ECA application for IRCC
- 2. Fill the entire application very carefully and include all the education qualifications that you need WES to assess for you.
- 3. Pay the fees.
  - **Tip**: Pay just the \$7 for courier of physical copies. No point of spending \$85 or so for speed delivery the hard copy is just for your record, and you just need the soft copy which is included in the original fee.
- 4. Now, go to your university and ask for 2 things:
  - Original transcripts of marksheets
  - Attested copy of your degree
     All universities have a different process of providing these 2 things to you. So just call them up and understand the process.
- 5. After you have these 2 documents, either your university or you will have to put them in a bag and courier it to WES (the address will be given to you by WES when you complete step Also include the WES reference number on top of the envelope.

IMPORTANT: The document must be sent from your university post office ONLY (or from a post office with the same pin code)
This is basically because many universities are lazy and while they are supposed to send the transcripts & degree directly to WES,

they ask you to courier it.

# IELTS TEST (ENGLISH LANGUAGE)

Alright! Now comes the make or break part of your application. Not trying to scare you, however this is the part where most people struggle (sometimes for months!).

Like we talked in the eligibility section, IELTS exam is basically to test your ability to LISTEN, READ, WRITE & SPEAK the language that's used the most to communicate in Canada.

#### What should I expect from the test?

There are 4 sections: Listening, Reading, Writing & Speaking.

#### Section 1: LISTENING (30 mins)

You will listen to four recorded texts, monologues and conversations by a range of native speakers, and answer a series of 40 questions. These include questions that test your ability to understand main ideas and detailed factual information, ability to understand the opinions and attitudes of speakers, and the ability to follow the development of ideas. Each section is heard only once.

**Recording 1:** A conversation between two people set in an everyday social context.

**Recording 2:** A monologue set in an everyday social context, e.g. a speech about local facilities.

**Recording 3:** A conversation between up to four people set in an educational or training context, e.g. a university tutor and a student discussing an assignment.

**Recording 4:** A monologue on an academic subject, e.g. a university lecture.

#### Important tips for listening section:

- The biggest problem that people face in this section is following the accent and speech of the native speaker!
  - ✓ **Solution:** Watching a lot of English serials help! So here's a free pass to binge watch at nights and weekends ☺ Trust me, it helps!
- The first section is the easiest and it gets tougher as you go towards section 4. You are given time between recordings to go through the questions (more time before the 1st 2 recordings and lesser in the next 2).
  - ✓ **Solution:** Use the time from the first 2 sections to read through the questions of section 3 and 4 as well <sup>②</sup> You will know what I am talking about when you do your practice test! Just remember this tip it will help you clear the section <sup>③</sup>

#### **Section 2: READING (60 mins)**

The Reading section consists of 40 questions. A variety of question types is used in order to test a wide range of reading skills. These include reading for gist, reading for main ideas, reading for detail, skimming, understanding logical argument and recognizing writers' opinions, attitudes and purpose.

The Reading test requires test takers to read extracts from books, magazines, newspapers, notices, advertisements, company handbooks and guidelines. These are materials you are likely to encounter on a daily basis in an English-speaking environment.

This is probably the easiest of the 4 sections to clear! The answers are all there ©

#### **Section 3: WRITING (60 mins)**

This is arguably the most difficult of the 4 sections! It's the section that most people are confident about and also the one that's flunked most often by the same confident people ©

The IELTS General Training Writing section includes two tasks which are based on topics of general interest.

#### Task 1

You will be presented with a situation and asked to write a letter requesting information or explaining the situation. The letter may be personal, semi-formal or formal in style.

#### Task 2 (Carries more weight in scoring)

You will be asked to write an essay in response to a point of view, argument or problem. The essay can be slightly more personal in style compared to an Academic Writing task.

**Super Important:** Go through the free material available on YouTube. I would suggest <u>IELTS Advantage</u> and <u>E2 IELTS</u>. IELTS Advantage also has a <u>free 5-day online course</u> that can help you get the desired score.

Whether you are a master of English or you suck at it, GO THROUGH ALL THE VIDEOS! It's non-negotiable (not that I can ever hold you to it... but do it guys, it's loads of free content!) — the suggestions from these videos will help you clear the section easily (or at least get you closer ©)

If you consider yourself average or below par in writing, buy the premium courses. This is one section where it's extremely difficult to get a feedback. The premium service will give you that feedback which would help you improve – it's worth it!

IELTS Advantage, E2 IELTS along with Cambly (will talk about this later) helped me clear my IELTS in the  $1^{st}$  attempt — which makes these recommendations very credible (I hope)  $\odot$ 

#### Section 4: SPEAKING (10-15 mins)

The Speaking section assesses your use of spoken English and takes between 11 and 14 minutes to complete with an IELTS examiner. IELTS uses real people in quiet rooms to test speaking — unlike an algorithm, an IELTS examiner will be able to make you feel relaxed and confident. They're also able to pick up on your native accent to ensure you get the best possible score. There are 3 parts to the IELTS Speaking section.

#### Part 1

The examiner will ask you general questions about yourself and a range of familiar topics, such as home, family, work, studies and interests. This part lasts between 4 and 5 minutes.

#### Part 2

You will be given a card which asks you to talk about a particular topic. You will have 1 minute to prepare before speaking for up to 2 minutes. The examiner will then ask one or two questions on the same topic to finish this part of the test.

#### Part 3

You will be asked further questions connected to the topic in Part 2. These questions will give you the opportunity to discuss more abstract ideas and issues. This part of the test lasts between 4 and 5 minutes.

Again, I would suggest to go through the YouTube videos from <u>E2 IELTS</u> here. They provide a lot of useful suggestions especially for your 2-minute speech in Part 2 where you will lose points if you speak less than 2 minutes (and 2 minutes is longer than you think it is – trust me!)

#### How do I go about scheduling my IELTS test?

There are 2 agencies that conduct the test:

- 1. British Council
- 2. IDP education

#### 2 biggest myths that I would like to bust now:

- 1. You will score better if you sit with IDP vs British Council
  - That's bullshit (pardon my language)
  - They have the exact same pattern and the exact same evaluation criteria – 2 agencies exist just to split the workload – nothing more, nothing less.
  - So, just go-ahead and book with the agency that's most convenient to you in terms of time availability.
- 2. You will score better if you sit from a city where the level of English is worse than your home city
  - Not true! Again, bullshit 😊
  - Concentrate on the right things' guys! All this is noise..

    Just focus on improving your command over the language and you will sail through.

#### So, how do I register for the test?

- 1. Just click on one of these links and select the most suitable / available date
  - Book your <u>British Council test</u>
  - Book your IDP test
- 2. Pay the fees (it's around USD 200)
- 3. Select **General training test** for immigration. Academic training is for guys who go for studies.

**How am I scored?** Click here to know the scoring system.

#### Should I go for Paper based or Computer based test?

It's up to you!

Let me give you the benefits and drawbacks of both — this is purely based on my research on the topic — both me and my wife gave paper-based.

#### PAPER - BASED

#### Pros:

✓ In the listening section, you get 10 additional minutes to transfer your answers from your question paper to answer book. That's a lot of time that can be used to revise your answers – I know that these 10 minutes helped me get a couple of more answers right ©

#### Cons:

- ✓ With the increased use of computers, I was just not used to writing letters and essays with a pencil and my writing sucked if the examiner doesn't understand your writing, you lose points.
- ✓ The exam is conducted only twice a month
- ✓ The results are released after 14 days much longer!

#### **COMPUTER - BASED**

#### Pros:

- ✓ Much more comfortable typing a letter vs writing it with a pencil
- ✓ The exam can be taken at any day of the month much more flexible
- ✓ The results are delivered within 4-7 days

#### Cons:

✓ You do not get the additional 10 minutes at the end of the listening section

Note: Speaking test format remains the same whether you choose paper-based or Computer based

If I had not passed the pen-paper exam in my 1st attempt, I would have given a computer-based re-test, because I was confident of clearing the test and could not wait another 20 days for the next available pen-paper slot (plus 14 days for results).

# How much do I need to score in order to stay eligible for express entry?

All sections are scored between 0 and 9. You can also have 0.5 decimal scores like 6.5, 7.5, 8.5 etc.

To be eligible you need to score a minimum of 6 in each section. However, that's just eligibility (remember step 1). You need much more in order to get enough points and clear the express entry cutoff. In-order to clear the cutoff, you will need:

Listening: 8 | Reading: 7 | Writing: 7 | Speaking: 7

What are these scores? It's very complicated and you can check complete <u>details here</u>, however I will make it super simple and only tell you the most important part of scoring below.

Like I explained in the beginning of the section, the first 2 sections (Listening and reading) have 40 questions each.

To score 8 in Listening, you need to score a minimum of 35/40

To score 7 in Reading, you need to score a minimum of 34/40

Scoring a **7** in Writing and Speaking are more subjective and you are scored based on how well you perform on the given tasks — the criteria are explained super-well on the <u>link here</u>.

8,7,7,7 is also called CLB 9. CLB stands for Canadian Language Benchmark and here is how you know your CLB.

CLB Level	Reading	Writing	Listening	Speaking
10	8.0	7.5	8.5	7.5
9	7.0	7.0	8.0	7.0
8	6.5	6.5	7.5	6.5
7	6.0	6.0	6.0	6.0
6	5.0	5.5	5.5	5.5
5	4.0	5.0	5.0	5.0
4	3.5	4.0	4.5	4.0

# How do I know how much preparation I need? How can I start practicing?

The first step is to go to British council's official website and do the sample tests in-order to know your current level.

Here's the link: IELTS practice test

The score you get in your sample test would determine the amount of time and effort you need to put in, in order to get a desirable score in IELTS.

#### YOUR LEVEL

If you scored 8,7,7,7 in LRWS respectively or maybe half a point lower in a section, congratulations! You are all set to sit for the exam within a month (with 1-2 hours of preparation daily) That was my level and I did 2 things in this 1 month (1-2 hours per day) − I got a CLB 10 ⊕:

- Official Cambridge book "<u>The Official Cambridge Guide</u> To Ielts Student's Book"
- Practice tests from: <a href="https://ieltsonlinetests.com/">https://ieltsonlinetests.com/</a>
- Free YouTube content from IELTS advantage & E2 IELTS
- Free <u>5-day course</u> from IELTS advantage

However, if you score low in 2 or more sections, you need to work a little harder now and may need help from someone. I would recommend **2-3 months of daily practice** before sitting for the exam. Here are a few additional resources you could go for:

- Paid online course such as IELTS Advantage
- Apps to improve speaking, such as Cambly

## Are paid courses worth it?

Depends on your current level of English! If you are falling short in one or more sections – then, you should seek outside help.

The offline classroom courses will also work, however they cost upwards of USD 200-500 (Rs. 15,000 – Rs. 40,000 in India). Also, it will be difficult to keep up with their schedule while you are busy with your own jobs!

I would personally suggest 2 online courses:

- 1. IELTS Advantage: This is one of the best online courses available out there. They have different packages depending on the sections that you need help with. They also have a lot of free content, so feel free to go through that before subscribing. <a href="#">CHECK HERE</a>
- 2. Cambly for speaking: Speaking can be a challenge for non-native speakers. It is sometimes difficult to catch the accent of native speakers / examiners while you are being tested on the day. Cambly is an amazing app that helps you talk to native speakers as per your schedule and get feedback on your accent, pronunciation, grammar, tone, pace and overall confidence! I used this and it cost me around ~USD 60 for a month so not too bad. <a href="CHECK HERE">CHECK HERE</a>

# CALCULATE CRS Google Play

Now that you have your ECA report from WES and your IELTS score, you are all set to make a profile... Hurraayy! ©

Before you do that, let's help you calculate your CRS. CRS stands for Comprehensive Rating System. Based on various factors like age, education, work experience and IELTS score, you are given a score out of 1200. This is much like the eligibility scale (in section 1), however this has nothing to do with your eligibility.

This score is used by Canada's immigration (IRCC) to rank all the people in the immigration pool and provide invitation to apply for permanent residency to the top 3000-4000 people per draw. In other words, IRCC comes-up with a draw and a cutoff score (usually every alternate Wednesday). If your CRS is higher than the cut-off, you get an invitation to apply ©

In order to calculate your CRS, click here and download our app, CanGuide.

In 2018, the cutoffs were closer to 420-440 points, however with more people wanting to immigrate to Canada, the cutoff range in 2020 has increased to 465-475.

However, do not worry if your score is lower than 465. There are a lot of provincial programs that invite specific in-demand occupation codes at a much lower CRS score (as low as 300).

If you are one of them, download our VOLUME 3 on Provincial Nomination programs and ways you can still fulfill your dream of moving to Canada.

#### I have a low CRS score, Is there any scope to improve it?

There are only a few things you can control when it comes to CRS score. There are a total of 4 factors that determine your CRS

- 1. Age: Can't change that! You lose 5 points per year after 30
- 2. Education: Tough to change that too, unless you are willing to enroll into a diploma course and wait another year.
- 3. Work Experience: You max out your points at 3 years of experience. So if you are slightly lower than 3 years, maybe you can wait for a few more months to give yourself additional points
- 4. IELTS score: The only thing you can control! A CLB 9 (8,7,7,7) is the least you need to get a decent CRS, however if you are able to achieve a higher score in one or more module, your score can increase by a maximum of 12 points!

If you are married and your spouse has a degree and can give IELTS, go for it! It is likely to give you more points!

In my case, I am 31 <sup>(a)</sup>, have a dual degree and 7+ years of work experience. If I score a CLB 9 in IELTS, and even with my wife's master's and good IELTS score, I would have maxed out at 455. However, I managed a higher score in 3 out of the 4 modules and got an additional 9 points (taking our CRS to 464 <sup>(a)</sup>)

Download <u>CANGUIDE</u>! Not only will it calculate your CRS score, it will also provide you <u>recommendations on how to improve the CRS score</u>.

Trust me, it's super-EPIC! You will thank me ☺

## MAKE YOUR EXPRESS ENTRY PROFILE

Once you have your ECA report and IELTS score, you should make your express entry profile irrespective of your CRS score or even if you did not get a desired score in your first IELTS attempt. You will have the option of updating the profile anytime you want till the time you receive your GOLDEN invitation to apply ©

Here is <u>link to the video</u> explaining the step-step process to create your express entry profile.

**Super Important:** DO NOT LIE or MAKE A MISTAKE in your profile. While you are not required to upload any proof of age, education etc. at this stage, this profile will determine your CRS score and if you would get an invitation to apply or not.

If you make a mistake (say select masters degree instead of bachelors), and get those additional CRS points, get an invitation because of this action in the next draw and fail to produce the proof of masters degree when you are submitting your documents during application process — your application will be rejected and worst case, I have even seen people getting barred from applying to Canada for 5 years!

This may seem like an obvious thing to avoid; however you will be surprised by the number of people who do it intentionally or unintentionally — especially the ones' who are lazy & stupid enough to leave this step in the hands of an agent or a consultant (no offense).

## WAIT FOR THE DRAW

Well, this one is frustrating!

IRCC releases draws every month (usually 2 per month on alternate Wednesdays).

Here's the <u>link</u> to catch the latest draw. You can checkout the latest news related to Canada immigration <u>here</u>.

This is also the point where you can join various Facebook support groups that we have. Really helpful in answering all questions you might have and speculating draws (though speculating is a waste of time, but it may help your nerves).

Two of these amazing FB groups that I follow:

- 1. Ask Kubeir Express Entry / Canada PR
- 2. <u>Dream abroad Canada</u>

If you have a score lower than 465 or whatever the average of last 4 draws is, you should consider doing something to improve your CRS.

- 1. Check some of the ways I listed in <u>Step 4</u>.
- 2. Consider Provincial Nomination program. <u>Free e-book</u> (Volume 3) available on our website.

## INVITATION TO APPLY

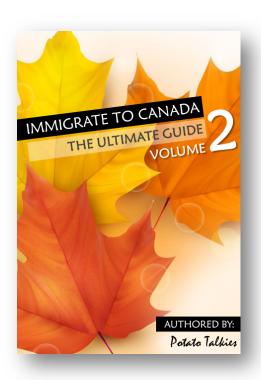

Hurraayyyy!

There was a cutoff from IRCC, and you made it. You will get a message in your profile "in messages section" within **24 hours** with a subject "Invitation to Apply".

This one is the shortest and the 2<sup>nd</sup> happiest step of the entire PR process (happiest being getting the PR in hand ☺)

In interest of not making this document a very long one, I would request you to download volume 2 from our website. It is a continuation of this e-book with details of collecting documents, sample letters all the way to getting your stamped passports.

So read on... 😊

DOWNLOAD VOLUME 2

### PHONE A FRIEND FOR CANADA

I have tried to equip you with everything there is to know about the application process. If you still want to discuss your case (in part or full) with me, I will be happy to get on a call and discuss.

However, do take note that I am not a LICENSED consultant and will not be able to fill the application on your behalf. Treat me like a friend who has your best interest in mind and will provide you with answers and suggestions based on months of research and my own experience of applying for the Canadian PR.

Please make sure you have the list of questions or agenda before you book a call.

#### **BOOK A FREE CALL**

#### Can't find a slot?

Sorry, there are only 10 free slots per week and get filled in a few hours. I will suggest to follow our stories on Instagram where we make our slots available every Tuesday.

Talk to you soon!
